

Name of the project: Support Peshmarga

Local committee: Duhok LC

Standing committee: SCOPH and SCORP

Location: Tlsqof , Duhok

Date: 15th /March /2018

Time: 9:00am

Aim: To do basic screening tests for Peshmarga and give them an idea about their health and any problem they might have. We also carried out basic life support training.

Plan of action: We went to Tlsqof about 40min away from Duhok. We had 7 stations - blood glucose and blood pressure measurement, lung survey by spirometer, awareness for the smokers, dental station for oral examination, and basic life support station for giving simple instructions on how to save lives in case there's nothing available during war. We also shared some leaflets and gifts such as tooth brush and tooth paste.
